Department of Geosciences Records, 1845-2017: Finding Aid

Summary Information

Call number: AC139
Repository: Princeton University. Library. Department of Rare Books and Special Collections
Seeley G. Mudd Manuscript Library. Princeton University Archives.
65 Olden Street Princeton, New Jersey 08540 USA
Size: 38 linear feet
48 boxes, 1 oversized folder
1 website
Language(s) of Material: English
Abstract: Established in 1904 as the Department of Geology, and later known as the Department of Geological and Geophysical Sciences, the Department of Geosciences has grown to become the center for the study of Earth, atmospheric, oceanographic, and environmental sciences at Princeton. The records document the department from its 19th-century origins to the recent past with departmental files, faculty files, faculty meeting minutes and visual materials.
Location: This collection is stored onsite at the Mudd Manuscript Library.

Established in 1904 as the Department of Geology, and later known as the Department of Geological and Geophysical Sciences, the Department of Geosciences has grown to become the center for the study of Earth, atmospheric, oceanographic, and environmental sciences at Princeton. Geoscientific studies at Princeton University date from 1854, when Arnold Guyot was appointed Professor of Geography and Physical Geology. Guyot was the sole instructor in geological sciences for 19 years and he was primarily responsible for the creation of the Geological Museum (located first in Nassau Hall and later in Guyot Hall), which grew from the fossils and geological specimens he collected for instructional purposes.

Even in its early years, the department was a leader in geological and paleontological fieldwork. In 1877, three of Guyot's students - William Berryman Scott, Henry F. Osborn and Francis Speer - participated in Princeton's first field expedition to Colorado and Wyoming in order to collect vertebrate fossils. It was the first in a series of expeditions to the American west made by Princeton students and faculty, eight of which Scott himself led between 1882-1893. Scott was awarded the Blair Professorship of Geology and Paleontology in 1884 and was the department chair from 1904-1930.

In 1909, five years after its founding, the Department of Geology moved into its home in Guyot Hall, a facility that also housed the department's growing Geological (or Natural History) Museum. Guyot Hall was designed by members of the department and funded by the mother of Cleveland H. Dodge (Class of 1879) who was a University trustee.

In 1926, Richard M. Field initiated Princeton's Summer School of Geology and Natural Resources, a still-extant annual field course designed to teach students in techniques of geological and geophysical research. Under the tenure of chairman Harry H. Hess (1950-1966), the Department of Geology expanded its course offerings to touch on many subjects under the umbrella of geological science. In 1968, the name of the department was changed to the Department of Geological and Geophysical Sciences to reflect the new curriculum. The department became known as the Department of Geosciences in 1996.

The records document the department from its 19th-century origins to the recent past with departmental files, faculty files, faculty meeting minutes and visual materials. In Series 4, a variety of materials document significant figures in the department such as Arnold Guyot, Richard Field, and William B. Scott. A consistent run of faculty meeting minutes in Series 4 provides a detailed picture of the department's development over the course of the 20th century.

The records are rich in photographs, slides and film that document many of the department's expeditions and excavations in North America—primarily in the American West. Photographs and negatives appear throughout the records, and not only in Series 7: Photographs. Both Series 5: Field Trips and Expeditions and Series 6: Natural History Museum contain a subseries of photographs.

The collection also includes the records of the defunct organization the American Institute of Geonomy and Natural Resources.
Histories of the department written by members of the department appear in Series 3: Department Administration under "Department Histories."

Access and Use

Access

The Department of Geosciences Records are open for research. Due to the presence of student educational records and personnel records, access to certain folders is restricted. See individual folder restrictions for more information.

Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.

For a general guide to access restrictions, please see the Access Policy for Princeton University Archives Collections

Restrictions on Use and Copyright Information

Single photocopies may be made for research purposes. For quotations that are fair use as defined under U. S. Copyright Law, no permission to cite or publish is required. The Trustees of Princeton University hold copyright to all materials generated by Princeton University employees in the course of their work. If copyright is held by Princeton University, researchers will not need to obtain permission, complete any forms, or receive a letter to move forward with non-commercial use of materials from the Mudd Library. For materials where the copyright is not held by the University, researchers are responsible for determining who may hold the copyright and obtaining approval from them. If you have a question about who owns the copyright for an item, you may request clarification by emailing mudd@princeton.edu.

Other Finding Aid(s)

Full text searching of this collection's archived website is available through the Archive-It interface.

Acquisition and Appraisal

Provenance and Acquisition

Appraisal

Duplicates and published volumes available elsewhere have been separated from the records. Grades from summer field courses during the years 1955-1990 have been separated from the records.
Related Materials

Related Archival Material

Researchers interested in these materials may also wish to consult the Princeton Scientific Expeditions Collection (AC012), Series 2: Geological Expeditions. In addition, the Department of Rare Books and Special Collections at Firestone Library holds the William Berryman Scott Papers (C0265); a collection of William Libbey Correspondence (C0872); the Charles Henry Smyth Journals (C0823); the Arnold Guyot Collection (C1095); and the Arthur Buddington Lantern Slides of Russia (C1448).

Processing and Other Information

Preferred Citation

Identification of specific item; Date (if known); Collection Title, Box and Folder Number; Department of Rare Books and Special Collections, Princeton University Library.

Works Cited

In the composition of this finding aid’s organizational history, the history section of the Department of Geosciences’ website (http://www.princeton.edu/geosciences/about/history/) and Alexander Leitch’s A Princeton Companion were consulted.

Processing Information

This collection was processed by Lynn Durgin in October 2010. Finding aid written by Lynn Durgin in October 2010. After significant accessions, the finding aid was revised by Phoebe Nobles in 2018.

Series 1: Alumni and Students, 1913-2007

Access:
Series 1 is open for research. Due to the presence of personal academic information, access to certain files is restricted at the folder level as noted.

Arrangement: Files are arranged physically in the order in which they were received from the department.

Description: Series 1: Alumni and Students includes files the geology department maintained on undergraduate and graduate students and alumni. The files include lists of students and their theses. Individual files may include correspondence with or about an alumnus; clippings; photographs; a curriculum vitae, and so on. Material created by undergraduates includes a 1979 guide to the department and a geology notebook from 1938.

Graduate, 1913-2007

Series 3: Department Administration, 1868-2008

Access:
Series 3 is open for research with some exceptions. Access to advisory council reports, reports to the president, and financial records from the past 40 years is restricted; such materials older than 40 years are open for research. Due to the presence of student academic information or personnel matters, access to certain folders is restricted at the folder level as noted, for periods up to 75 years. Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.

Arrangement: The files are arranged physically in the order in which they were received from the department (often in alphabetical runs). The archivist grouped files loosely by subject for the purposes of this finding aid only.

Description: Series 3: Department Administration contains various files maintained by the geology department, including information on course planning and course offerings; department histories often written by members of the department; departmental reports to the university president; plans for and assessment of the department’s structure and academic foci; budgets and allocated funds; and records of the Geological Engineering Program. The files include correspondence, clippings, newsletters (especially The Smilodon), pamphlets, and maps.

Historical Interest, 1890-1954
Series 4: Faculty and Staff, 1845-2012

Description: Series 4: Faculty and Staff includes faculty meeting minutes; basic files the department maintained on faculty members (which may include clippings, correspondence, curriculum vitae, and photographs); as well as the more extensive files of longtime faculty members such as A.F. Buddington, B.F. Howell and William Taylor Thom. Files on Arnold Guyot primarily contain research about Guyot; other faculty files may have been maintained by the faculty themselves and include material such as correspondence (some personal); publications; course and lecture materials including examinations; diaries and field notes; biographies and bibliographies; faculty contracts and recommendations; photographs; and an

Access:
Series 4 is open for research, with some exceptions. Access to faculty meeting minutes is restricted for 75 years from the date of their creation. Due to the presence of personnel information, access to certain files is restricted at the folder level as noted.
Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.

Arrangement: The files are arranged physically in the order in which they were received from the department. For the purposes of this finding aid, the archivist grouped multiple files on individual faculty members.

Description: Series 4: Faculty and Staff includes faculty meeting minutes; basic files the department maintained on faculty members (which may include clippings, correspondence, curriculum vitae, and photographs); as well as the more extensive files of longtime faculty members such as A.F. autograph book as well as letters kept primarily for autographs. William Bonini’s files include a
box of his gravity journals, notebooks of field observations.
Researchers seeking information on faculty-led field trips should also consult Series 5: Field
Trips and Expeditions. Photographs of faculty and staff are present in Series 4 in Series 5, and
in Series 7: Photographs.
Researchers seeking information on faculty member Glenn Jepsen may also wish to consult
Series 7: Photographs, which contains a subgroup of Jepsen's photographs.

Faculty Meeting Minutes, 1905-1994

Size: 2.0 linear feet

Description: The faculty meeting minutes consist primarily of bound volumes,
with the exception of the earliest minutes (1905-1920), which are a mixture of
hand-written and typed documents. The minutes document the department's
courses, initiatives, governance, grading parameters, and related matters
throughout the 20th century.

Access: Faculty meeting minutes are restricted for 75 years from the date of their
creation.

Series 5: Field Trips and Expeditions ... (Continued)

Access:
This folder is restricted until 2040.

Series 5: Field Trips and Expeditions, 1854-2001

Access:
Series 5 is open for research.
Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.

Arrangement: The files are arranged physically in the order in which they were received from the department. For the purposes of this finding aid, the archivist has arranged the series into time periods and photographic material as noted below.

Description: Series 5: Field Trips and Expeditions documents geology department travels, to the American west in particular. The series is grouped into early expeditions (19th century), expeditions between 1900 and 1924, and expeditions after 1924. Photographs are present throughout the records, but folders and albums that contain almost entirely photographs have been placed in the subgroup "Photographs." Another subgroup, Summer Field Courses, contains records of summer trips beginning with the Pullman car excursions of 1926 through the field courses of the 1990s.
There is overlap between this series and Series 7: Photographs, particularly the latter series' subgroup "Events and Trips." The division of the two series reflects to some extent the geology department's record-keeping practices. The department kept extensive files grouped under "Field Trips" as well as files grouped under "Photographs."

Early Expeditions, 1854-1996

Book of Mineral Expeditions, 1854-1861
   Description: Leather-bound journal that documents a trip to the Wissahickon, Germantown, PA

List of Field Maps, undated

Box: 35

Series 6: Natural History Museum, 1854-2014

Access:

Series 6 is open for research. Due to the presence of personnel information, access to certain files is restricted at the folder level as noted.

Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.
Arrangement: The files are arranged physically in the order in which they were received from the department.

Description: Series 6: Natural History Museum contains files that relate directly to the Natural History Museum in Guyot Hall. The series contains records of collections, exhibits and loans, as well as records of the major museum deaccession of fossils in the 1980s.

Cases, 1936-1977

Museum Cases: Exhibit, 1958-1977  
  Description: Photographs, clippings, invoices of cases
Display cases--Kewaunee Museum Equipment, 1964-1972

Loans to Princeton: Returned, 1932-1985  Box: 33

Museum Exchanges--1960s, 1960-1965  Box: 36

Description: Correspondence esp. re: Antrodemus skull casts

Exchanges: A-Mc, 1947-1986  Box: 36
Series 6: Natural History Museum ... (Continued)

Description: Itemized lists

Exchanges: N-W, 1951-1986  Box: 36

Description: Itemized lists

Description: Invoices and memos

People, 1899-2005

Baird, Don - Curator, 1956-2005  Box: 15

Description: Includes photographs

Hawkins, B. Waterhouse, 1971-2005  Box: 32

Description: Clippings and report

Hill, Franklin C., undated  Box: 32

Description: Curator of the Museum 1879-90; drawer labels, handwritten note

Horner, Jack - Assistant Curator, 1975-2005  Box: 32

Description: Mostly newspaper clippings; hand-drawn map to Dinosaur Camp

Access:
This folder is restricted until 2057.

Horsfall, R. Bruce , 1899-1995  Box: 32

Description: 1868-1948, natural science illustrator

Photographs, 1907-2000

Smilodon Fall 2000, 2000  Box: 16

Description: Photographs of museum circa 1910-2000

Glass Lantern Slides of Museum Specimens, undated  Box: 27

Access:
Access to glass plate negatives is restricted due to their fragility.

Description: 6 glass lantern slides

Negatives of the Oil Paintings in Guyot by Benjamin Waterhouse Hawkins, undated  Box: 28

Access:
Access to glass plate negatives is restricted due to their fragility.

Description: 8 x 10 glass plate negatives with flaking edges. Original paintings date 1876-1878.

Mesohippus Grallipes, undated  Box: 11
Access:
Access to glass plate negatives is restricted due to their fragility.

Description: 5 x 7 glass plate negative

Haplophoneus Skeleton, undated  
Box: 11

Access:
Access to glass plate negatives is restricted due to their fragility.

Description: 5 x 7 glass plate negative

Photographs in Museum--Guyot Hall, circa 2000  
Box: 38

Photographs--Invertebrates, 1907, undated  
Box: 38

Description: Including Princetonian trilobite

Photos of Large Mammals from Jep's File, circa 1948  
Box: 38

Pictures of Museum Specimens, undated  
Box: 38

Photographs of Sloth Crash, 1959  
Box: 38

Miscellaneous Photographs, undated  
Box: 38

Photographs of Museum Work, undated  
Box: 38

Description: Photographs include Donald Baird

Perissodactyls, 1940, undated  
Box: 38

Description: Photographs and negatives undated; correspondence 1940; one glass plate negative moved to Box 28

Horses and Ancestors, undated  
Box: 38

Proboscideans, undated  
Box: 38

Description: Including Robert Bruce Horsfall photo

Rhinos and Ancestors--Three-Toed, undated  
Box: 38

Policy and Procedures, 1915-1972

Museum Attendance, 1962-1972  
Box: 36

Description: Attendance records

Museum Numbers, 1915-1916, undated  
Box: 38

Description: Handwritten lists of numbers representing specimens

Museum--Policy--Buddington, 1940-1967  
Box: 38

Museum Rules, undated  
Box: 38

Description: Jepsen and Baird documents

Visitors to the Museum, 1962-1971  
Box: 38

Reports, 1936-2008
Series 7: Photographs, 1870-2005

Access:
Series 7 is open for research. Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library’s policy on digitization of photographs.

Arrangement: The files are arranged physically in the order in which they were received from the department. For the purposes of this finding aid, the archivist has grouped the photographs loosely into three categories.

Description: Series 7: Photographs contains files which for the most part were grouped under the heading "Photographs" by the department. The files include photographs of faculty, staff, undergraduate and graduate students; of field trips and scenery; of events on campus; and of campus buildings. The files in Series 7 tend to contain photographs almost exclusively, while many folders throughout the rest of the Department of Geosciences Records contain photographs stored together with other materials. Note that both Series 5: Field
Trips and Expeditions and Series 6: Natural History Museum also contain subgroups called "Photographs." Photographs of individual faculty and staff are often found in their files in Series 2.

Campus, 1911-1992

- Buildings 1992--Sayre Hall (Photographs), 1992
  Box: 16
- Van Ingen's Photographs, 1911-1916
  Box: 43
- Photographs, circa 1916-1918
  Box: 43
  Description: Includes site of Engines and Airplanes Building
- Campus Photographs, 1975-1983, undated
  Box: 43

Events and Trips, 1885-2005

Professor Glenn Jepsen's Photographs, Slides and Film, 1957-1971

- Size: 1.46 linear feet
- Description: A variety of photographic and film formats of expeditions, excavation sites and specimens.
- Arrangement: The materials have been grouped according to format.
  - Green River Polaroid Photographs, undated
    Box: 10
