| Language(s) of Material: | English |
| Abstract: | Established in 1904 as the Department of Geology, and later known as the Department of Geological and Geophysical Sciences, the Department of Geosciences has grown to become the center for the study of Earth, atmospheric, oceanographic, and environmental sciences at Princeton. The records document the department from its 19th-century origins to the recent past with departmental files, faculty files, faculty meeting minutes and visual materials. |
| Location: | This collection is stored onsite at the Mudd Manuscript Library. |

Contents List ............................................................................................................................................................
Established in 1904 as the Department of Geology, and later known as the Department of Geological and Geophysical Sciences, the Department of Geosciences has grown to become the center for the study of Earth, atmospheric, oceanographic, and environmental sciences at Princeton. Geoscientific studies at Princeton University date from 1854, when Arnold Guyot was appointed Professor of Geography and Physical Geology. Guyot was the sole instructor in geological sciences for 19 years and he was primarily responsible for the creation of the Geological Museum (located first in Nassau Hall and later in Guyot Hall), which grew from the fossils and geological specimens he collected for instructional purposes.

Even in its early years, the department was a leader in geological and paleontological fieldwork. In 1877, three of Guyot's students - William Berryman Scott, Henry F. Osborn and Francis Speer - participated in Princeton's first field expedition to Colorado and Wyoming in order to collect vertebrate fossils. It was the first in a series of expeditions to the American west made by Princeton students and faculty, eight of which Scott himself led between 1882-1893. Scott was awarded the Blair Professorship of Geology and Paleontology in 1884 and was the department chair from 1904-1930.

In 1909, five years after its founding, the Department of Geology moved into its home in Guyot Hall, a facility that also housed the department's growing Geological (or Natural History) Museum. Guyot Hall was designed by members of the department and funded by the mother of Cleveland H. Dodge (Class of 1879) who was a University trustee.

In 1926, Richard M. Field initiated Princeton's Summer School of Geology and Natural Resources, a still-extant annual field course designed to teach students in techniques of geological and geophysical research. Under the tenure of chairman Harry H. Hess (1950-1966), the Department of Geology expanded its course offerings to touch on many subjects under the umbrella of geological science. In 1968, the name of the department was changed to the Department of Geological and Geophysical Sciences to reflect the new curriculum. The department became known as the Department of Geosciences in 1996.

The records document the department from its 19th-century origins to the recent past with departmental files, faculty files, faculty meeting minutes and visual materials. In Series 4, a variety of materials document significant figures in the department such as Arnold Guyot, Richard Field, and William B. Scott. A consistent run of faculty meeting minutes in Series 4 provides a detailed picture of the department's development over the course of the 20th century.

The records are rich in photographs, slides and film that document many of the department's expeditions and excavations in North America—primarily in the American West. Photographs and negatives appear throughout the records, and not only in Series 7: Photographs. Both Series 5: Field Trips and Expeditions and Series 6: Natural History Museum contain a subseries of photographs.

The collection also includes the records of the defunct organization the American Institute of Geonomy and Natural Resources.
Histories of the department written by members of the department appear in Series 3: Department Administration under "Department Histories."

Access and Use

Access

The Department of Geosciences Records are open for research. Due to the presence of student educational records and personnel records, access to certain folders is restricted. See individual folder restrictions for more information.

Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library’s policy on digitization of photographs.

For a general guide to access restrictions, please see the Access Policy for Princeton University Archives Collections

Restrictions on Use and Copyright Information

Single photocopies may be made for research purposes. For quotations that are fair use as defined under U. S. Copyright Law, no permission to cite or publish is required. The Trustees of Princeton University hold copyright to all materials generated by Princeton University employees in the course of their work. If copyright is held by Princeton University, researchers will not need to obtain permission, complete any forms, or receive a letter to move forward with non-commercial use of materials from the Mudd Library. For materials where the copyright is not held by the University, researchers are responsible for determining who may hold the copyright and obtaining approval from them. If you have a question about who owns the copyright for an item, you may request clarification by contacting us through the Ask Us! form.

Other Finding Aid(s)

Full text searching of this collection's archived website is available through the Archive-It interface.

Acquisition and Appraisal

Provenance and Acquisition

Appraisal

Duplicates and published volumes available elsewhere have been separated from the records. Grades from summer field courses during the years 1955-1990 have been separated from the records.
Related Materials

Related Archival Material

Researchers interested in these materials may also wish to consult the Princeton Scientific Expeditions Collection (AC012), Series 2: Geological Expeditions. In addition, the Special Collections at Firestone Library holds the William Berryman Scott Papers (C0265); a collection of William Libbey Correspondence (C0872); the Charles Henry Smyth Journals (C0823); the Arnold Guyot Collection (C1095); and the Arthur Buddington Lantern Slides of Russia (C1448).

Processing and Other Information

Preferred Citation

Identification of specific item; Date (if known); Collection Title, Box and Folder Number; Special Collections, Princeton University Library.

Series 1: Alumni and Students, 1913-2007

Access:
Series 1 is open for research. Due to the presence of personal academic information, access to certain files is restricted at the folder level as noted.

Arrangement: Files are arranged physically in the order in which they were received from the department.

Description: Series 1: Alumni and Students includes files the geology department maintained on undergraduate and graduate students and alumni. The files include lists of students and their theses. Individual files may include correspondence with or about an alumnus; clippings; photographs; a curriculum vitae, and so on. Material created by undergraduates includes a 1979 guide to the department and a geology notebook from 1938.

Series 2: Associations, 1899-1970

Access:
Series 2 is open for research.

Arrangement: The files are arranged in the order in which they were received from the department.

Description: Series 2: Associations contains records of various geology-related associations or organizations, including some records of the Geology Club at Princeton; the Princeton
Geological Association; and the Geological Society of America; as well as the records of the American Institute of Geonomy and Natural Resources (an organization led by Princeton faculty members, though it was not headquartered at Princeton).

American Institute of Geonomy and Natural Resources Records, 1952 October 13-1970

Biography/History: The American Institute of Geonomy and Natural Resources, Inc. was established in 1952 by Richard M. Field, Arthur Murphy, Fanny Field and others to gather and disseminate scientific information and to conduct research "in respect of the art of living," as stated their By-Laws. The organization was led by two Princeton faculty members, Richard Field, and W. Taylor Thom, Jr. before it was disbanded in 1969. Documentation in the files indicates that the Geology Department was designated as the repository for the records.

Description: The Institute of Geonomy and Natural Resources records include the organization's by-laws, articles of incorporation, correspondence, bulletins, annual reports and financial information.

Arrangement: The files in this group have been maintained in the order that they were received.

Access: The files of the American Institute of Geonomy and Natural Resources are open for research.

**Series 3: Department Administration, 1868-2008**

**Access:**

Series 3 is open for research with some exceptions. Access to advisory council reports, reports to the president, and financial records from the past 30 years is restricted; such materials older than 30 years are open for research. Due to the presence of student academic information or personnel matters, access to certain folders is restricted at the folder level as noted, for periods up to 75 years.

Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.
Arrangement: The files are arranged physically in the order in which they were received from the department (often in alphabetical runs). The archivist grouped files loosely by subject for the purposes of this finding aid only.

Description: Series 3: Department Administration contains various files maintained by the geology department, including information on course planning and course offerings; department histories often written by members of the department; departmental reports to the university president; plans for and assessment of the department's structure and academic foci; budgets and allocated funds; and records of the Geological Engineering Program. The files include correspondence, clippings, newsletters (especially The Smilodon), pamphlets, and maps.

Description: Correspondence with Van Ingen, Jepsen, and Sinclair

Invitations, Field Notes, Correspondence, 1901-1927
Box: 14
Series 4: Faculty and Staff, 1845-2012

Description: Includes invitation to a Dinosaur Tea with Professor Henry Fairfield Osborn, letter by B.F. Howell, and copies of letters of William Scott.

Access:
Series 4 is open for research, with some exceptions. Access to faculty meeting minutes is restricted for 75 years from the date of their creation. Due to the presence of personnel information, access to certain files is restricted at the folder level as noted. Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.

Arrangement: The files are arranged physically in the order in which they were received from the department. For the purposes of this finding aid, the archivist grouped multiple files on individual faculty members.

Description: Series 4: Faculty and Staff includes faculty meeting minutes; basic files the department maintained on faculty members (which may include clippings, correspondence, curriculum vitae, and photographs); as well as the more extensive files of longtime faculty members such as A.F. Buddington, B.F. Howell and William Taylor Thom. Files on Arnold Guyot primarily contain research about Guyot; other faculty files may have been maintained by the faculty themselves and include material such as correspondence (some personal); publications; course and lecture materials including examinations; diaries and field notes; biographies and bibliographies; faculty contracts and recommendations; photographs; and an autograph book as well as letters kept primarily for autographs. William Bonini's files include a box of his gravity journals, notebooks of field observations. Researchers seeking information on faculty-led field trips should also consult Series 5: Field Trips and Expeditions. Photographs of faculty and staff are present in Series 4 in Series 5, and in Series 7: Photographs. Researchers seeking information on faculty member Glenn Jepsen may also wish to consult Series 7: Photographs, which contains a subgroup of Jepsen's photographs.

Faculty Meeting Minutes, 1905-1994

Description: The faculty meeting minutes consist primarily of bound volumes, with the exception of the earliest minutes (1905-1920), which are a mixture of hand-written and typed documents. The minutes document the department's courses, initiatives, governance, grading parameters, and related matters throughout the 20th century.

Access:
Faculty meeting minutes are restricted for 75 years from the date of their creation.

1905-1920

Orlanski, Isidoro, 1977-1997

David Parris *70, 1986-2001
Series 5: Field Trips and Expeditions, 1854-2001

Access:
Series 5 is open for research. Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.

Arrangement: The files are arranged physically in the order in which they were received from the department. For the purposes of this finding aid, the archivist has arranged the series into time periods and photographic material as noted below.

Description: Series 5: Field Trips and Expeditions documents geology department travels, to the American west in particular. The series is grouped into early expeditions (19th century), expeditions between 1900 and 1924, and expeditions after 1924. Photographs are present throughout the records, but folders and albums that contain almost entirely photographs have been placed in the subgroup "Photographs." Another subgroup, Summer Field Courses, contains records of summer trips beginning with the Pullman car excursions of 1926 through the field courses of the 1990s.
There is overlap between this series and Series 7: Photographs, particularly the latter series' subgroup "Events and Trips." The division of the two series reflects to some extent the geology department's record-keeping practices. The department kept extensive files grouped under "Field Trips" as well as files grouped under "Photographs."

Early Expeditions, 1854-1996

Book of Mineral Expeditions, 1854-1861  
Description: Leather-bound journal that documents a trip to the Wissahickon, Germantown, PA

Series 6: Natural History Museum, 1854-2014

Description: Series 6: Natural History Museum contains files that relate directly to the Natural History Museum in Guyot Hall. The series contains records of collections, exhibits and loans, as well as records of the major museum deaccession of fossils in the 1980s.

Cases, 1936-1977

Museum Cases: Exhibit, 1958-1977
Description: Photographs, clippings, invoices of cases

Display cases--Kewaunee Museum Equipment, 1964-1972
Description: Invoices, assembly instructions

Re: Museum Equipment--Orders, Cases, 1936-1971
Description: Negatives and architectural drawings

Museum--Furniture, Cases, etc., undated
Description: Circa 1930s
Collections, 1854-2007

Catalogue of the Mollusks in the Stuart Collection at the Lenox Library, 1897

Sketches and Photographs of Mounted Fossils in the Geological Museum, 1888

Description: Franklin C. Hill and Royal H. Rose

F.C. Hill Collection of Fossils and Rock of Ohio, 1876-1878

Description: Journal of Specimens of Fossils and Rock of Ohio collected by Franklin C. Hill

Memorabilia, 1895-1980

Description: Clippings, museum labels, etc.

Mineral Display--Montgomery, Arthur (Prof.), 1965-1975

Exchanges: pre-1935, 1861-1934

Description: Typed and handwritten itemized lists, letters (3 folders)

Lists of Fossils Prof. Cook, etc. --Smyth, 1854-1967

Description: 2 folders

Ward and Howell, etc.--Fossils--Guyot Purchase of 1875 and 1878, 1877-1878

Description: Handwritten itemized lists

Field Records, 1932-1954

Description: Labels typed and handwritten reports

Fish Swallowing Fish--Fossil and Modern, 1948-1990

Description: One lantern slide moved to Box 52

Firestone Library Fish Photographs, 1946-2004

Description: Photos, negatives, clippings; four lantern slides moved to Box 51

Firestone Library Fish Correspondence, 1946-1963

Gifts to Museum--Akeley Bronzes, 1908-1978

Gifts sent from the Guyot Museum--Swiss Lake Dwellers, 1950-1963

Old Inventories of Museum, 1934-1960

Old Inventories and Loans, 1889-1959

Old labels, undated

Description: Old labels printed and handwritten from museum drawers or displays (3 folders)
Labels of specimens on exhibit, undated  Box: 37
  Description: Display labels--Jepsen/Judson

Walter Rankin and Frank Ward Correspondence, 1890-1897  Box: 37
  Description: About buying and cleaning fossils

Man (Prehistoric), 1922  Box: 38
  Description: Correspondence re: skulls--William Sinclair

Molds and Casts of Our Specimens, circa 1985  Box: 38

Patagonia, 1952-1995  Box: 38

Museum Security (Theft of Artifacts), 1956-1982  Box: 38

Museum Specimens--Miscellaneous, 1939-1997  Box: 38
  Description: Jepsen correspondence

Sales--Museum Specimens, 1972  Box: 38
  Description: Mastodon skeleton

Accession Book, 1937-1971  Box: 46

Catalogue, 1937-1974  Box: 46

Antrodemus or Allosaurus, 1961  Box: 36
  Description: Clipping, negatives, Jepsen report; see also Cleveland-Lloyd Quarry

Allosaurus - Antrodemus, 1981-2007  Box: 36
  Description: Clippings, photographs

Antrodemus Mount, 1960-1988  Box: 36
  Description: Clippings, notes, photographs, negatives, correspondence

Artiodactyls, undated  Box: 36
  Description: Mostly photographs

Artiodactyls, undated  Box: 36
  Description: Mostly photographs

McMannis, William J. Bangtail Bird, 1952-1953  Box: 36
  Description: Correspondence with Jepsen

Bat--Eocene Icharchonicterus index, 1965-1994  Box: 36
  Description: Bat fossil clippings and negatives (1965) and permissions correspondence (1988-1994)

Blue John Vase, 1977-1993  Box: 36
Carnivores, 1917, undated  
   Description: Photographs and clippings; glass plate negative  
      Hoplophoneus moved to Box 28  
Box: 36

Benecke Collection (Triassic), 1903  
   Description: Handwritten list, 1903 postcard  
Box: 36

Cephalopods--Fischer, Moritz, 1891-1910  
   Description: Handwritten and typed letters  
Box: 36

Atlantic Ocean Dredged Specimens, 1949-1961  
   Description: Jepsen correspondence esp. re: mastodon teeth  
Box: 36

Edentates, undated  
   Description: Photographs  
Box: 36

E. Marsh Museum Acquisitions, 1885-1889  
   Description: Handwritten notes and photographs  
Box: 36

E. Marsh Museum, undated  
   Description: Blank labels  
Box: 36

Gidley, J. W.--Equidae, 1902-1907  
   Description: Correspondence  
Box: 36

Committee, 1938-1981  

Old Museum Committee, 1938-1944  
   Box: 36

Museum--Committee Meetings, etc., 1938-1968  
   Box: 36

Museum Committee, 1968-1979  
   Description: Handwritten lists and memoranda  
Box: 36

Museum Committee, 1980-1981  
   Description: Memoranda  
Box: 36

Correspondence, 1900-2008  

Knight, Charles Robert, 1937-2008  
   Description: Clippings, letters, photos  
Box: 35

Matthew, William Diller Correspondence, 1900-1925  
   Description: Curator at American Museum of Natural History  
Box: 35

Museum Anthropology, Archaeology, 1963-1967  
   Description: Jepsen correspondence  
Box: 36

Deaccession, 1878-2014

Series 7: Photographs, 1870-2005

Access:
Series 7 is open for research. Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.

Arrangement: The files are arranged physically in the order in which they were received from the department. For the purposes of this finding aid, the archivist has grouped the photographs loosely into three categories.

Description: Series 7: Photographs contains files which for the most part were grouped under the heading "Photographs" by the department. The files include photographs of faculty, staff, undergraduate and graduate students; of field trips and scenery; of events on campus; and of campus buildings. The files in Series 7 tend to contain photographs almost exclusively, while many folders throughout the rest of the Department of Geosciences Records contain photographs stored together with other materials. Note that both Series 5: Field Trips and Expeditions and Series 6: Natural History Museum also contain subgroups called "Photographs." Photographs of individual faculty and staff are often found in their files in Series 2.

Campus, 1911-1992

- Buildings 1992--Sayre Hall (Photographs), 1992  Box: 16
- Van Ingen's Photographs, 1911-1916  Box: 43
- Photographs, circa 1916-1918  Box: 43
  - Description: Includes site of Engines and Airplanes Building
- Campus Photographs, 1975-1983 , undated  Box: 43

Events and Trips, 1885-2005

- Professor Glenn Jepsen's Photographs, Slides and Film, 1957-1971
  - Description: A variety of photographic and film formats of expeditions, excavation sites and specimens.
  - Arrangement: The materials have been grouped according to format.
