Established in 1904 as the Department of Geology, and later known as the Department of Geological and Geophysical Sciences, the Department of Geosciences has grown to become the center for the study of Earth, atmospheric, oceanographic, and environmental sciences at Princeton. Geoscientific studies at Princeton University date from 1854, when Arnold Guyot was appointed Professor of Geography and Physical Geology. Guyot was the sole instructor in geological sciences for 19 years and he was primarily responsible for the creation of the Geological Museum (located first in Nassau Hall and later in Guyot Hall), which grew from the fossils and geological specimens he collected for instructional purposes.

Even in its early years, the department was a leader in geological and paleontological fieldwork. In 1877, three of Guyot's students - William Berryman Scott, Henry F. Osborn and Francis Speer - participated in Princeton's first field expedition to Colorado and Wyoming in order to collect vertebrate fossils. It was the first in a series of expeditions to the American west made by Princeton students and faculty, eight of which Scott himself led between 1882-1893. Scott was awarded the Blair Professorship of Geology and Paleontology in 1884 and was the department chair from 1904-1930.

In 1909, five years after its founding, the Department of Geology moved into its home in Guyot Hall, a facility that also housed the department's growing Geological (or Natural History) Museum. Guyot Hall was designed by members of the department and funded by the mother of Cleveland H. Dodge (Class of 1879) who was a University trustee.

In 1926, Richard M. Field initiated Princeton's Summer School of Geology and Natural Resources, a still-extant annual field course designed to teach students in techniques of geological and geophysical research. Under the tenure of chairman Harry H. Hess (1950-1966), the Department of Geology expanded its course offerings to touch on many subjects under the umbrella of geological science. In 1968, the name of the department was changed to the Department of Geological and Geophysical Sciences to reflect the new curriculum. The department became known as the Department of Geosciences in 1996.

The records document the department from its 19th-century origins to the recent past with departmental files, faculty files, faculty meeting minutes and visual materials. In Series 4, a variety of materials document significant figures in the department such as Arnold Guyot, Richard Field, and William B. Scott. A consistent run of faculty meeting minutes in Series 4 provides a detailed picture of the department's development over the course of the 20th century.

The records are rich in photographs, slides and film that document many of the department's expeditions and excavations in North America—primarily in the American West. Photographs and negatives appear throughout the records, and not only in Series 7: Photographs. Both Series 5: Field Trips and Expeditions and Series 6: Natural History Museum contain a subseries of photographs.

The collection also includes the records of the defunct organization the American Institute of Geonomy and Natural Resources.
Histories of the department written by members of the department appear in Series 3: Department Administration under "Department Histories."

Access and Use

Access

The Department of Geosciences Records are open for research. Due to the presence of student educational records and personnel records, access to certain folders is restricted. See individual folder restrictions for more information.

Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.

For a general guide to access restrictions, please see the Access Policy for Princeton University Archives Collections

Restrictions on Use and Copyright Information

Single photocopies may be made for research purposes. For quotations that are fair use as defined under U. S. Copyright Law, no permission to cite or publish is required. The Trustees of Princeton University hold copyright to all materials generated by Princeton University employees in the course of their work. If copyright is held by Princeton University, researchers will not need to obtain permission, complete any forms, or receive a letter to move forward with non-commercial use of materials from the Mudd Library. For materials where the copyright is not held by the University, researchers are responsible for determining who may hold the copyright and obtaining approval from them. If you have a question about who owns the copyright for an item, you may request clarification by emailing mudd@princeton.edu.

Other Finding Aid(s)

Full text searching of this collection's archived website is available through the Archive-It interface.

Acquisition and Appraisal

Provenance and Acquisition

Appraisal

Duplicates and published volumes available elsewhere have been separated from the records. Grades from summer field courses during the years 1955-1990 have been separated from the records.
Related Archival Material

Researchers interested in these materials may also wish to consult the Princeton Scientific Expeditions Collection (AC012), Series 2: Geological Expeditions. In addition, the Special Collections at Firestone Library holds the William Berryman Scott Papers (C0265); a collection of William Libbey Correspondence (C0872); the Charles Henry Smyth Journals (C0823); the Arnold Guyot Collection (C1095); and the Arthur Buddington Lantern Slides of Russia (C1448).

Processing and Other Information

Preferred Citation

Identification of specific item; Date (if known); Collection Title, Box and Folder Number; Special Collections, Princeton University Library.

Works Cited

In the composition of this finding aid’s organizational history, the history section of the Department of Geosciences’ website (http://www.princeton.edu/geosciences/about/history/) and Alexander Leitch’s A Princeton Companion were consulted.

Series 1: Alumni and Students, 1913-2007

Access:
Series 1 is open for research. Due to the presence of personal academic information, access to certain files is restricted at the folder level as noted.

Arrangement: Files are arranged physically in the order in which they were received from the department.

Description: Series 1: Alumni and Students includes files the geology department maintained on undergraduate and graduate students and alumni. The files include lists of students and their theses. Individual files may include correspondence with or about an alumnus; clippings; photographs; a curriculum vitae, and so on. Material created by undergraduates includes a 1979 guide to the department and a geology notebook from 1938.

Graduate, 1913-2007

Series 2: Associations, 1899-1970

Access:
Series 2 is open for research.

Arrangement: The files are arranged in the order in which they were received from the department.

Description: Series 2: Associations contains records of various geology-related associations or organizations, including some records of the Geology Club at Princeton; the Princeton
Geological Association; and the Geological Society of America; as well as the records of the American Institute of Geonomy and Natural Resources (an organization led by Princeton faculty members, though it was not headquartered at Princeton).

American Institute of Geonomy and Natural Resources Records, 1952 October 13-1970

Size: 0.5 linear feet

Biography/History: The American Institute of Geonomy and Natural Resources, Inc. was established in 1952 by Richard M. Field, Arthur Murphy, Fanny Field and others to gather and disseminate scientific information and to conduct research "in respect of the art of living," as stated their By-Laws. The organization was led by two Princeton faculty members, Richard Field, and W. Taylor Thom, Jr. before it was disbanded in 1969. Documentation in the files indicates that the Geology Department was designated as the repository for the records.

Description: The Institute of Geonomy and Natural Resources records include the organization’s by-laws, articles of incorporation, correspondence, bulletins, annual reports and financial information.

Arrangement: The files in this group have been maintained in the order that they were received.

Access: The files of the American Institute of Geonomy and Natural Resources are open for research.

**Series 3: Department Administration, 1868-2008**

**Access:**

Series 3 is open for research with some exceptions. Access to advisory council reports, reports to the president, and financial records from the past 30 years is restricted; such materials older than 30 years are open for research. Due to the presence of student academic information or personnel matters, access to certain folders is restricted at the folder level as noted, for periods up to 75 years.

Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible.
for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.

Arrangement: The files are arranged physically in the order in which they were received from the department (often in alphabetical runs). The archivist grouped files loosely by subject for the purposes of this finding aid only.

Description: Series 3: Department Administration contains various files maintained by the geology department, including information on course planning and course offerings; department histories often written by members of the department; departmental reports to the university president; plans for and assessment of the department's structure and academic foci; budgets and allocated funds; and records of the Geological Engineering Program. The files include correspondence, clippings, newsletters (especially The Smilodon), pamphlets, and maps.

Relation of the Wissahickon Mica Gneiss to the Shenandoah Limestone, 1916

Memorial Pamphlets to Geologists, 1937-1949
  Description: Alexander Hamilton Phillips' and other memorial pamphlets collected by Buddington

Princeton Earth Physics Project Newsletter, 1994

Pine Barrens, 1966-1990

Memorabilia--Princeton, 1914-1999

Report on the Geology of Central New Jersey and the Vicinity of Princeton, circa 1929
  Description: Written by J.S. Vhay '29

  Description: Compilation of Facts booklet by Dept. of Public Information

Clippings, 1930-1937

Graduate Council Executive Committee on Scholarships, 1947-1948

Clippings, 1935-1985

Newspaper Clippings (Jepsen), 1930-1946

Newspaper Clippings, 1928-1936

Princeton Alumni Weekly and University Quarterly, 1926, 1979

Time, Space and Matter, 1960-1969
  Description: Time Space and Matter was a secondary school science teaching project in the 1960s.

  Time, Space, and Matter: Investigating the Physical World, LP, 1963
  Bill Barton's Overview--Time, Space and Matter, circa 1965

  Time, Space and Matter Teacher and Student Booklets, 1965-1967

Department Information, 1942-1943
  Description: List of faculty and staff and courses

Bicentennial Conference, 1946-1948

  Bicentennial Conference, 1946-1947
  Bicentennial Conference on Genetics, Paleontology, and Evolution, 1946-1948
Bicentennial Lectures, circa 1947
Biographies of Bicentennial Conference Members, 1947
Guyot Archives to Mudd, 1985-1998
   Description: Legend to the archive from cabinet and prior requisitions lists
Review Committee Briefing Book, 1990
Biology, 1974-1978
   Description: Includes Bonner, John correspondence
Departmental Progress Reports, 1979
Status of Princeton Department of Geology, 1936-1937
Departmental Notes (Department--about it as a whole), 1925-2000
   Description: Faculty advisory booklets and student photo albums
Geology 1932, 1932
   Description: Correspondence re: the Council of the Department of Geology
Graduate Council, 1932-1934
The Geological Sciences at Princeton, 1927
   Description: Printed booklet
Historical Interest, 1890-1954
   Description: Includes departmental memoranda and faculty salaries
Business Cards, undated
   Description: From "Historical Interest" folder
Research [Logs of Expenses], 1889-1954
Department Plans, Space and Faculty, 1946-1960
Laboratory Furniture, 1909
Reports to the President from Department Chairs, 1942-1975
Clippings and Pamphlets, 1945-1990
   Description: List of faculty and staff and courses
Correspondence, Pamphlets, Etc., 1925-1971
War Service Bureau Report, 1943-1945
President John Hibben Letters, 1912-1932
   Description: Correspondence with Van Ingen, Jepsen, and Sinclair
Invitations, Field Notes, Correspondence, 1901-1927
Description: Includes invitation to a Dinosaur Tea with Professor Henry Fairfield Osborn, letter by B.F. Howell, and copies of letters of William Scott.

Series 4: Faculty and Staff, 1845-2012

Access:
Series 4 is open for research, with some exceptions. Access to faculty meeting minutes is restricted for 75 years from the date of their creation. Due to the presence of personnel information, access to certain files is restricted at the folder level as noted. Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.

Arrangement: The files are arranged physically in the order in which they were received from the department. For the purposes of this finding aid, the archivist grouped multiple files on individual faculty members.

Description: Series 4: Faculty and Staff includes faculty meeting minutes; basic files the department maintained on faculty members (which may include clippings, correspondence, curriculum vitae, and photographs); as well as the more extensive files of longtime faculty members such as A.F. Buddington, B.F. Howell and William Taylor Thom. Files on Arnold Guyot primarily contain research about Guyot; other faculty files may have been maintained by the faculty themselves and include material such as correspondence (some personal); publications; course and lecture materials including examinations; diaries and field notes; biographies and bibliographies; faculty contracts and recommendations; photographs; and an autograph book as well as letters kept primarily for autographs. William Bonini's files include a box of his gravity journals, notebooks of field observations. Researchers seeking information on faculty-led field trips should also consult Series 5: Field Trips and Expeditions. Photographs of faculty and staff are present in Series 4 in Series 5, and in Series 7: Photographs. Researchers seeking information on faculty member Glenn Jepsen may also wish to consult Series 7: Photographs, which contains a subgroup of Jepsen's photographs.

Faculty Meeting Minutes, 1905-1994

Size: 2.0 linear feet

Description: The faculty meeting minutes consist primarily of bound volumes, with the exception of the earliest minutes (1905-1920), which are a mixture of hand-written and typed documents. The minutes document the department's courses, initiatives, governance, grading parameters, and related matters throughout the 20th century.

Access:
Faculty meeting minutes are restricted for 75 years from the date of their creation.

Series 5: Field Trips and Expeditions, 1854-2001

Access:
Series 5 is open for research.
Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.

Arrangement: The files are arranged physically in the order in which they were received from the department. For the purposes of this finding aid, the archivist has arranged the series into time periods and photographic material as noted below.

Description: Series 5: Field Trips and Expeditions documents geology department travels, to the American west in particular. The series is grouped into early expeditions (19th century), expeditions between 1900 and 1924, and expeditions after 1924. Photographs are present...
throughout the records, but folders and albums that contain almost entirely photographs have been placed in the subgroup "Photographs." Another subgroup, Summer Field Courses, contains records of summer trips beginning with the Pullman car excursions of 1926 through the field courses of the 1990s. There is overlap between this series and Series 7: Photographs, particularly the latter series' subgroup "Events and Trips." The division of the two series reflects to some extent the geology department's record-keeping practices. The department kept extensive files grouped under "Field Trips" as well as files grouped under "Photographs."

Early Expeditions, 1854-1996

- **Book of Mineral Expeditions, 1854-1861**
  - Description: Leather-bound journal that documents a trip to the Wissahickon, Germantown, PA

## Series 6: Natural History Museum, 1854-2014

**Access:**
Series 6 is open for research. Due to the presence of personnel information, access to certain files is restricted at the folder level as noted. Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's [policy on digitization of photographs](#).

**Arrangement:** The files are arranged physically in the order in which they were received from the department.

**Description:** Series 6: Natural History Museum contains files that relate directly to the Natural History Museum in Guyot Hall. The series contains records of collections, exhibits and loans, as well as records of the major museum deaccession of fossils in the 1980s.

**Cases, 1936-1977**

**Museum Cases: Exhibit , 1958-1977**  
Description: Photographs, clippings, invoices of cases  
Box: 36

**Display cases--Kewaunee Museum Equipment, 1964-1972**  
Description: Invoices, assembly instructions  
Box: 36

**Re: Museum Equipment--Orders, Cases, 1936-1971**  
Description: Negatives and architectural drawings  
Box: 36

**Museum--Furniture, Cases, etc., undated**  
Box: 37
Description: Circa 1930s

Collections, 1854-2007

Catalogue of the Mollusks in the Stuart Collection at the Lenox Library, 1897

Box: 16

Sketches and Photographs of Mounted Fossils in the Geological Museum, 1888

Box: 45

Description: Franklin C. Hill and Royal H. Rose

F.C. Hill Collection of Fossils and Rock of Ohio, 1876-1878

Box: 30

Description: Journal of Specimens of Fossils and Rock of Ohio collected by Franklin C. Hill

Memorabilia, 1895-1980

Box: 35

Description: Clippings, museum labels, etc.

Mineral Display--Montgomery, Arthur (Prof.), 1965-1975

Box: 35

Exchanges: pre-1935, 1861-1934

Box: 35

Description: Typed and handwritten itemized lists, letters (3 folders)

Lists of Fossils Prof. Cook, etc. --Smyth, 1854-1967

Box: 35

Description: 2 folders

Ward and Howell, etc.--Fossils--Guyot Purchase of 1875 and 1878, 1877-1878

Box: 35

Description: Handwritten itemized lists

Field Records, 1932-1954

Series 7: Photographs, 1870-2005

Access:
Series 7 is open for research.
Access to glass-plate negatives is restricted due to their fragility. Where prints of the negatives are present, the prints are open for research use. Though digitization may not be possible for every negative, researchers may make requests to digitize material according to Mudd Library's policy on digitization of photographs.

Arrangement: The files are arranged physically in the order in which they were received from the department. For the purposes of this finding aid, the archivist has grouped the photographs loosely into three categories.

Description: Series 7: Photographs contains files which for the most part were grouped under the heading "Photographs" by the department. The files include photographs of faculty, staff, undergraduate and graduate students; of field trips and scenery; of events on campus; and of campus buildings. The files in Series 7 tend to contain photographs almost exclusively, while many folders throughout the rest of the Department of Geosciences Records contain photographs stored together with other materials. Note that both Series 5: Field Trips and Expeditions and Series 6: Natural History Museum also contain subgroups called "Photographs." Photographs of individual faculty and staff are often found in their files in Series 2.
